DEPARTMENT OF PUBLIC SERVICE

Public Service Announcement

September 11, 2015

DPS will continue flushing water mains on the low service in the east end next week. The following areas will be affected from Monday, September 14th through Friday, September 25th, during the day:

Everything east of Otsego St to East End Ave, and to the end of the City water distribution system on Main St, just before Fox Care.

During flushing, water users may experience a change in water color and/or pressure. This is a common, temporary occurrence and is not a cause for alarm.

For questions, please call the Department of Public Service at (607) 432-2100.
